NEIU Main Campus (Chicago, IL)

Why Choose Northeastern?

Northeastern Illinois University is committed to providing an affordable education. That's why our tuition and fees are among the most affordable of the Illinois public universities. We offer a **tuition guarantee program** that guarantees incoming students the same tuition rate for four years.

Northeastern offers more than 40 undergraduate degree and certificate programs, with classes on weekdays, evenings, weekends, and online. Small class sizes allow for students to pursue a more personal academic experience in one of the most ethnically diverse universities in the nation.

Economics Program Description

The Bachelor of Arts Degree in Economics focuses on increasing students' understanding of economic principles and important issues that face consumers, business, and the national and international economy. Business, governments, and non-profits all value people who can help plan the best course of action and make sense of the complicated issues we face every day. Not only does an economics degree provide students with a useful set of business tools - problem-solving, data analysis, and policy modeling - it gives graduates the ability to handle challenges in a wide range of fields - international economics, urban economics, health economics, behavioral economics, and real estate. It is more than a technical degree. It is real world skills for real world problems.
