Art (Studio Art Concentration) Program Description

Northeastern's Department of Art + Design offers an undergraduate program leading to a Bachelor of Arts degree in Art. The fundamental objective of the Art + Design Department programs is to provide and promote a knowledge and understanding of the visual arts. The studio concentration gives students hands-on exposure to a variety of skills, both analytic and technical, in order to help students express concepts visually. Programs in the department prepare students to pursue graduate school, careers in the arts or teaching, and emphasize lifelong learning.
