Why Choose Northeastern?

Northeastern Illinois University is committed to providing an affordable education. That's why our tuition and fees are among the most affordable of the Illinois public universities. We offer a **tuition guarantee program** that guarantees incoming students the same tuition rate for four years.

Northeastern offers more than 40 undergraduate degree and certificate programs, with classes on weekdays, evenings, weekends, and online. Small class sizes allow for students to pursue a more personal academic experience in one of the most ethnically diverse universities in the nation.

Psychology Program Description

Northeastern's Department of Psychology offers an undergraduate program that leads to a Bachelor of Arts in Psychology. Our comprehensive Psychology program exposes you to various areas of psychology as well as opportunities for hands-on research and optional field experience.

The department faculty members represent a number of theoretical approaches as well as a wide range of content areas, enhancing your opportunity to become acquainted with the full scope of this broad and complex subject. Because of the need to create a combination of courses consistent with their career goals, students are urged to form a continuing relationship with a department faculty advisor early in their major.

The interdisciplinary nature of psychology requires familiarity with other fields. Students intending to pursue graduate studies should have a strong background in mathematics and the natural sciences. All Psychology majors will benefit from course work in philosophy, physiology, literature, history, the social sciences, and computer science.
