Why Choose Northeastern?

Northeastern Illinois University is committed to providing an affordable education. That’s why our tuition and fees are among the most affordable of the Illinois public universities. We offer a **tuition guarantee program** that guarantees incoming students the same tuition rate for four years.

Northeastern offers more than 40 undergraduate degree and certificate programs, with classes on weekdays, evenings, weekends, and online. Small class sizes allow for students to pursue a more personal academic experience in one of the most ethnically diverse universities in the nation.

Community Health Program Description

The Community Health (HSCI) program prepares students to work in a variety of settings that include: city, county, and state health departments, hospitals, worksite wellness, college campuses, parks and recreation departments, non-profit organizations (American Diabetes Association, American Cancer Society, YMCA, Boys and Girls Club), and more. Example programs community health majors work with include: nutrition and exercise, alcohol and other drugs, sexual transmitted infections and contraception awareness, social and emotional health, environmental awareness, disease prevention, health disparities, immunization awareness, and many more. They may initiate wellness programs, write policies, implement educational activities, or create resources to promote healthy living. Examples of job titles might include, but are not limited to, healthcare administrator, health educator, and community health worker. The degree is also a launching pad for a graduate education in a number of health-related fields.
