Why Choose Northeastern?

Northeastern Illinois University is committed to providing an affordable education. That's why our tuition and fees are among the most affordable of the Illinois public universities. We offer a **tuition guarantee program** that guarantees incoming students the same tuition rate for four years.

Northeastern offers more than 40 undergraduate degree and certificate programs, with classes on weekdays, evenings, weekends, and online. Small class sizes allow for students to pursue a more personal academic experience in one of the most ethnically diverse universities in the nation.

Graphic Design Program Description

The Bachelor of Fine Arts in Graphic Design is an applied arts program with a focus on the development of visual solutions to communication problems, and offers students guided hands-on experience in the creation of visual messages in print and electronic media. Degree candidates in the program are prepared for professional careers in the field and are challenged to research and evaluate the role contemporary design practices hold in our society.

The B.F.A. in Graphic Design begins with a strong foundation in design principles, introduces students to digital technologies and progresses into more specialized courses. Particular emphasis is placed on the development of typographic skills, and students are familiarized with a range of topics including branding/identity design, packaging design, systems design and environmental design through studio and special topics courses. Interaction design, mobile apps, and web design are taught alongside publication design, as well as historic print processes that inform contemporary design practice. The program is enriched through mentorship by professionals in the related fields of photography, digital arts, and printmaking. Courses in these areas help our students develop image-making and print production skills, expose them to base level coding and web development skills, and introduce them to experimental areas of design, which merge elements of branding, web design and development.

The B.F.A. in Graphic Design is a professional degree and students must fulfill required coursework to be admitted to the program.
